

Pre-RFP Informational Session Agenda
RFI-7-9
Indiana State Department of Health
Third Party Administrative Services

The Indiana State Department of Health will be hosting a Pre-RFP Informational Session on:

August 1, 2006
2:00 PM Eastern (Indianapolis) Time
ISDH Building
2 North Meridian Street, Conference Room 8A
Indianapolis, IN 46204

- I. Introductions
- II. Discussion of Request for Proposal (RFP) process by Indiana Department of Administration
- III. Discussion of Minority and Women's Business Enterprise Requirements
- IV. Description of RFP:

ISDH is seeking a respondent to manage enrollment data, issue benefit cards, adjudicate medical and pharmacy claims, collect and supply utilization data, and provide customer service for the HIV Medical Services Program. This program provides medical and pharmaceutical services for eligible individuals living with Human Immunodeficiency Virus (HIV) in Indiana.

The HIV Medical Service Program has four major components. These are the:

- Health Insurance Assistance Plan (HIAP);
- AIDS Drug Assistance Plan (ADAP);
- Early Intervention Plan (EIP); and
- Medicare Part D Assistance Plan (MDAP).

HIAP is the core service. The plan works in conjunction with the Indiana Comprehensive Health Insurance Association (ICHIA), the state's high-risk insurance carrier. It covers the enrollee's full premium cost under ICHIA's Plan 1. Premiums are paid quarterly. HIAP also covers all co-payment, co-insurance, and deductible costs associated with the policy. It does not pay against non-covered services or those provided by out-of-network providers except to the extent provided by the policy. It does not pay against non-covered pharmaceutical claims.

A pre-existing condition clause exists under ICHIA's Plan 1. During this time (usually three months), the ICHIA policy and HIAP will pay against all allowable expenses except those related to HIV (or any other disclosed pre-existing condition). ADAP and EIP offer selective HIV-related benefits during the pre-existing condition period to ensure comprehensive coverage.

ADAP covers a limited array of HIV-related medications. ADAP claims are adjudicated separately from the HIAP claims, and the benefit is not associated with the ICHIA policy. ADAP will pay no more than the Medicaid rate less 12% for the covered drugs. Participating pharmacies must agree to this rate and must not impose any fees upon the enrollee for

covered drugs.

EIP covers a limited array of HIV-related medical services (e.g., x-rays). EIP claims are adjudicated separately from the HIAP claims, and the benefit is not associated with the ICHIA policy. EIP will pay no more than the “usual and customary” rate for the covered services. Participating providers must agree to this rate and must not impose any fees upon the enrollee for the covered services.

HIAP coverage may continue until the enrollee reaches the age of 65 at which time ICHIA will no longer carrier the insured individual. Persons who reach this stage may then be transitioned onto MDAP. MDAP coverage is contingent upon the participation in Medicare Part D. MDAP covers all co-payments, co-insurance, and deductibles associated with allowable drugs under Part D plans. MDAP does not cover any premium costs and does not pay against any non-covered drugs.

V. Questions and Answer Session

Prior Solicitation: BAA 00-82
